Commissioner for Patents

Examiner had cited a non-patent literature by Milliken et al., "Race car vehicle dynamics" (1995) in the previous Office Action, on the PTO-892 form and a copy (most pertinent pages relevant to the Office Action) was provided to the Applicant. However, the Applicant requested additional pages from Milliken to understand one of the parameter used, namely T_{in} . As such, courtesy copies (pgs 63-69) are provided. Applicant is advised to contact the examiner if this does not rectify the problem.
